

Overview

The Secabo T120 II cutting plotter with its advanced automatic functions is ideal for processing large plots and high volumes in professional quality. The integrated LAPOS Q multi-fiducial recognition system automatically registers set fiducials so that even free forms can be cut precisely. With its powerful servo motor, all common materials used in signmaking can be processed. The backlit LCD display and large gel buttons make it easy and convenient to use. The Secabo T120 II cutting plotter is designed for a maximum media width of 135 centimeters and a maximum cutting width of 126 centimeters. The scope of delivery includes the DrawCut PRO cutting software for Windows as well as a sturdy stand with roll holder and a practical collection basket.

Features

high precision

High precision for cutting of smallest fonts and objects.
