

Overview

High cutting quality and precision make the Secabo C60 V cutting plotter a reliable universal partner. With its stepper motor, all common materials in advertising technology can be processed. The cutting plotter is designed for a maximum cutting width of 63cm and a maximum media width of 72cm. The plotter presents itself with completely new, comfortable menu and user guidance and in an independent design. The software uses the successful LAPOS contour cutting function as well as the supplied cutting software DrawCut LITE for Windows. A sturdy base with roll holder is also included.

Features

Easy menu navigation

comfortable control panel with illuminated LCD-display and large buttons

Mac compatible

This product is also available as a mac compatible version with the SignCut software (without LAPOS).

64bit enabled

The device can be controlled by 64bit operating systems.

Plug and play

simple installation, no additional drivers necessary

Improved LAPOS

The improved LAPOS facilitates faster reading of crop marks for a productive contour cut.

DrawCut LITE

DrawCut LITE supplied - with controls for LAPOS2 and many functions for professional graphic design
