

Overview

The Secabo S60 II cutting plotter was developed for users who want to carry out large quantities and extensive jobs in professional quality. With its powerful servo motor, all common materials can be processed up to a maximum cutting width of 61 and a media width of up to 72 centimeters. The newly designed menu navigation is based on Secabo's many years of experience and conveniently guides you through all work steps. The new, independent design of the Secabo S60 II cutting plotter integrates perfectly into any work environment. The integrated LAPOS contour cut function and the included DrawCut LITE cutting software for Windows PCs ensure precise results. The supplied stand with roll holder offers additional convenience.

Features
