Overview

The new Secabo T60 II cutting plotter with modern automatic functions is ideal for processing large plots and high volumes in professional quality. With its powerful servo motor, it can process all common materials up to a maximum cutting width of 61 and a media width of up to 72 centimeters. The integrated LAPOS Q multi register mark detection system automatically registers set register marks so that even free forms can be cut precisely. The backlit LCD display and large gel buttons make it easy and convenient to use. The scope of delivery includes the DrawCut PRO cutting software for Windows as well as a sturdy stand with roller holder and a practical collection basket.
Features

high precision

High precision for cutting of smallest fonts and objects.
