

**TP**

## Overview

The newly developed heat press Secabo TP10 is for professional textile printers of large objects: With an extra large work area of 80 x 100 cm, the transfer press is particularly suitable for heat transfers on expansive media such as flags, sheets or room dividers made of textile. The base plate acts as a drawer, which allows comfortable arranging of transfer objects and can be handled despite its size with little effort. The pressure of the TP10 transfer press is produced by compressed air, which means working with consistent and reproducible results. The pneumatic head of the heat plate allows due to vertical contact pressure a flawless transferring of various materials without displacement effects, etc. The Secabo TP10 heat press with a heat output of 5.1 kW is suitable for all standard transfer processes and thus can be used in almost all areas of technology transfer.

## Features

### Digital controller

Duration and temperature can easily be adjusted and monitored using the digital controller.

### Variable work pressure

The work pressure is easy to adjust - in each case matching the transfer object and procedure.

### Safe working

The safety and quality of this device is constantly monitored - according to German safety standards.

### Precise temperature distribution

The high-quality heat plate ensures an exact temperature distribution over the entire heating surface.

### Low hysteresis

A state-of-the-art controller reduces the temperature fluctuations to a minimum, thus ensuring consistently good transfer results.

### Opens automatically

The heat press automatically opens after the set time has elapsed.

## Technical Data

dimensions	105cm x 90cm x 145cm
working area	80cm x 100cm
net weight	190 kg
scope of delivery	heat press, power cord, compressor valve, manual
pressure setting	setting of pneumatic pressure
max. downforce	150 g/cm <sup>2</sup>
max temperature	225 °C
maximum time preset	999 s
power supply	3P+N+PE, 5.1kW. The connection by an electrician is recommended.
environment	+5°C - +35°C / 30% - 70% relative humidity
Brand	Secabo
