

# TS

## Overview

With its convenient automatic swing mechanism, the new and optimized Secabo TS7 transfer press offers a particularly large working area for convenient alignment of the transfer objects. The generous base plate measuring 40cm x 50cm is arranged in portrait format, which makes it even easier to position the objects to be transferred precisely. The automatic opening and automatic swinging open of the TS7 press after the transfer process allow comfortable and even more flexible working. The Secabo TS7 is suitable for all known hot transfer processes and can therefore be used in almost all areas of transfer technology. Automatic opening

Much space under the base plate

Comprehensive accessories available

High heating power and good heat distribution

Note for interchangeable plates and adapters: Smaller interchangeable plates are available separately (8x12cm, 12x38cm, 15x15cm, 20x30cm) and only in combination with the Secabo interchangeable plate quick changer for TS7 (Art.No. 109.505.17)! For the optional base plate 38cm x 38cm (Art.No. 109.505.40) as well as the original heating plate, the adapter for base plate and S.-W. Secabo TC5, TS7 (Art.No. 109.505.30) is required!

## Features

### Digital controller

Duration and temperature can easily be adjusted and monitored using the digital controller.

### Large workspace

The heat press can be opened up to 100° to work easily and safely

### Variable work pressure

The work pressure is easy to adjust – in each case matching the transfer object and procedure.

### Safe working

The safety and quality of this device is constantly monitored – according to German safety standards.

### Precise temperature distribution

The high-quality heat plate ensures an exact temperature distribution over the entire heating surface.

### Low hysteresis

A state-of-the-art controller reduces the temperature fluctuations to a minimum, thus ensuring consistently good transfer results.

## Technical Data

dimensions	64cm x 70cm x 58cm
working area	40cm x 50cm
scope of delivery	heat press, power cord, english manual
pressure setting	Height adjustment base plate
max. downforce	170 g/cm <sup>2</sup>
max temperature	225 °C
maximum time preset	999 s
power supply	AC 230V / 50Hz - 60Hz, 1.8kW
environment	+5°C - +35°C / 30% - 70% relative humidity
weight without packaging	75 kg
weight with package	91,00 kg
Brand	Secabo
